WELCOME TO THE WORLD OF **ECOLINK!**

Thank you for making EcoLink India's fastest growing lighting brand. EcoLink was launched in 2019 by Signify, a subsidiary of Signify N.V. – a company with a legacy of over 90 years in India as Philips N.V.

EcoLink first entered the market with a wide range of luminaires. We now look to expand our portfolio by introducing a range of EcoLink fans.

Our products are manufactured with the highest safety & quality standards and are designed to deliver sustained superior performance. With superior aesthetics and many functional benefits, EcoLink products are the perfect choice for the Indian household. We aspire to make EcoLink a household electrical brand in the coming years, by introducing a complete range of electrical products dedicated to making life simpler.

SETTING THE BENCHMARK FOR **QUALITY.**

STATE-OF-THE-ART EQUIPMENT

By using world-class equipment, we ensure the highest standards of safety and quality are maintained for all our products.

SOURCING ONLY THE BEST

Our team ensures that all components and raw materials used are of the highest quality at all times.

MANUFACTURING AT SCALE

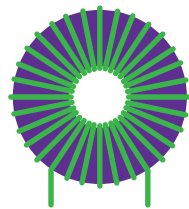

EcoLink controls every step of the manufacturing process to ensure only the finest products reach the customers. We've also received an ISO 9001:2015 certification for our Quality Management System Standard.

DELIVERING QUALITY, ALWAYS

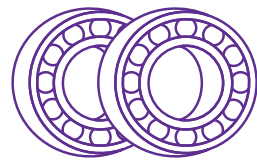

Every EcoLink product undergoes stringent quality checks and testing before it is released to the market.

A Peaceful Breeze In Every Corner.

High performance motor

Powerful motors with high-quality full copper windings to ensure sustained superior performance.

Double ball bearing

High-quality components used to ensure longevity and minimum maintenance cost over the life of the product.

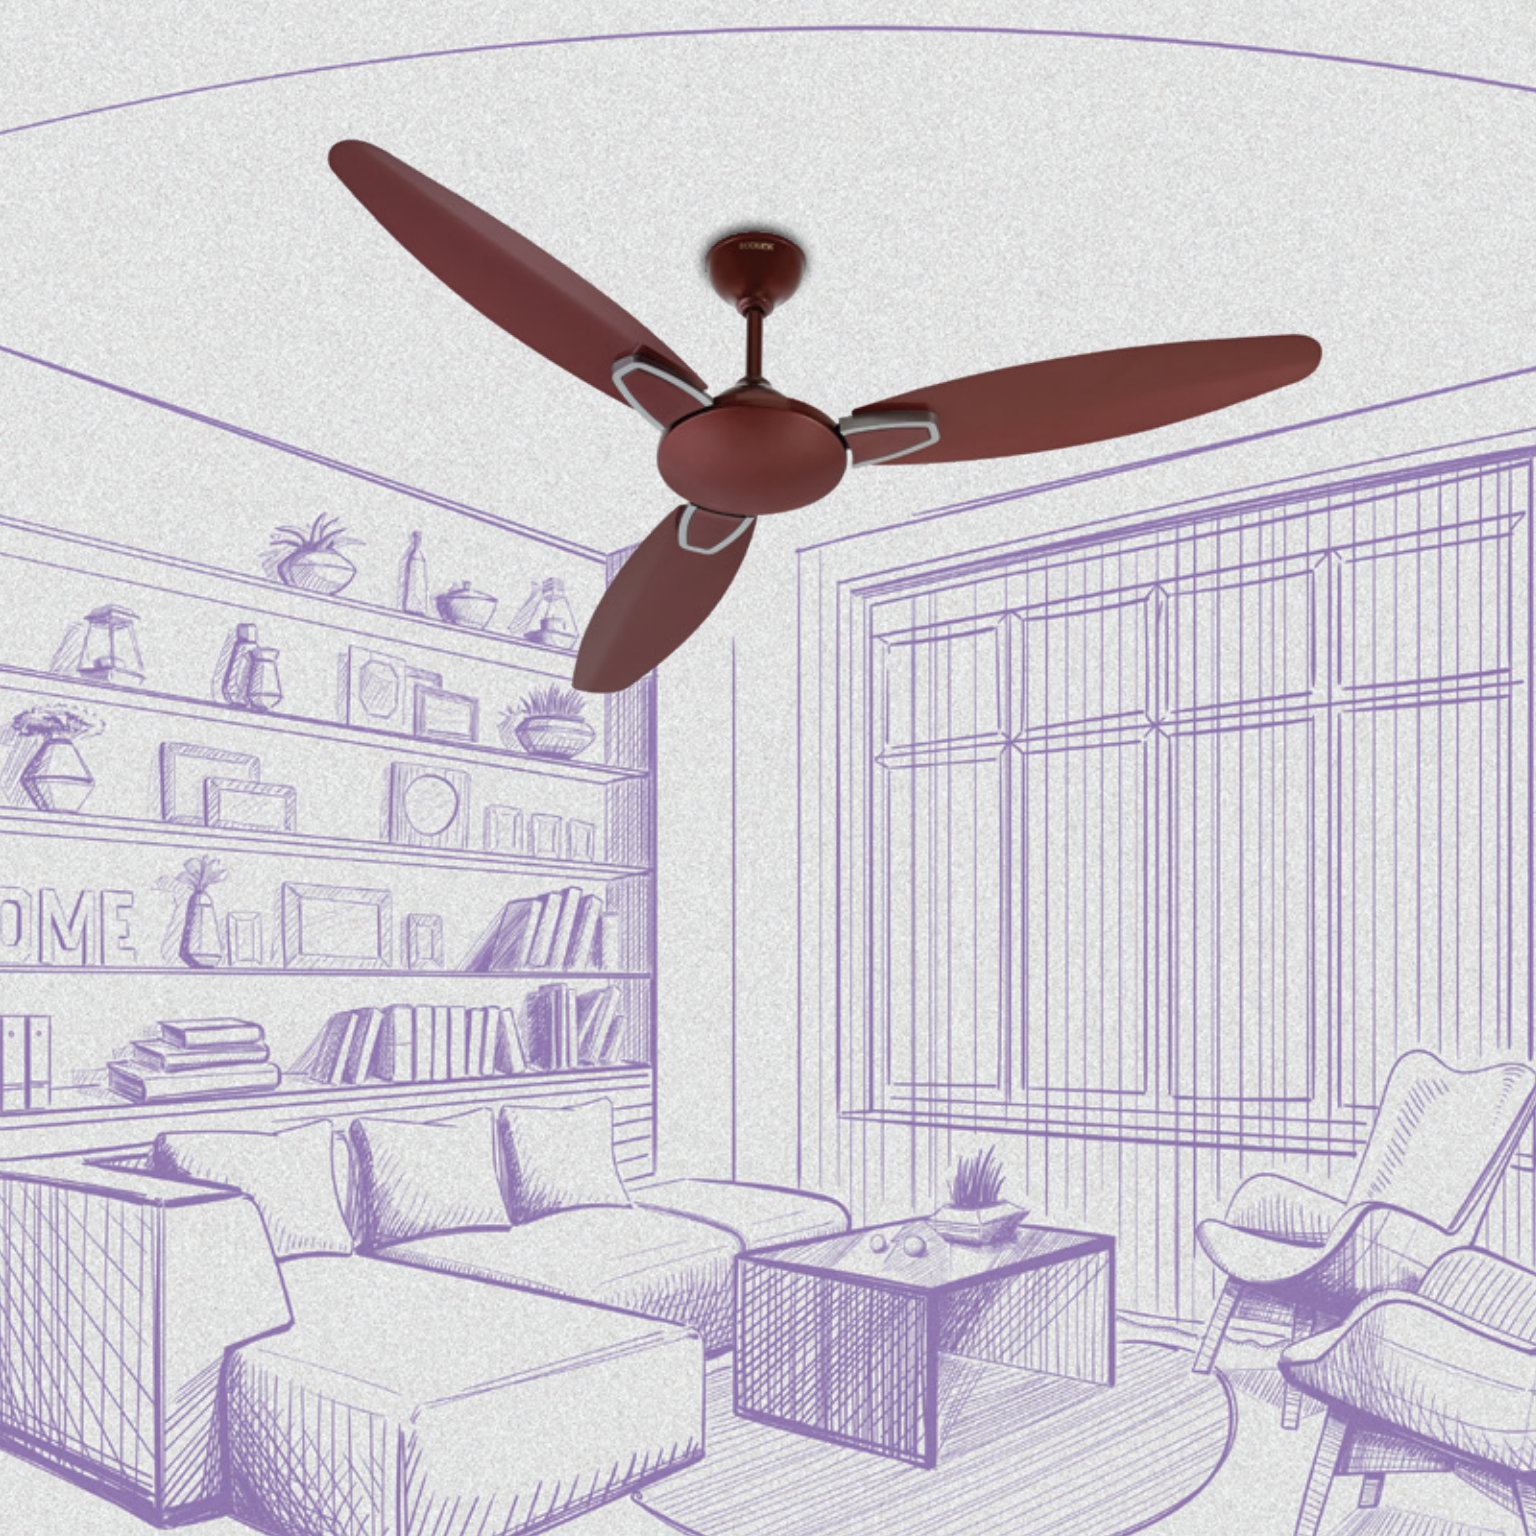

Higher air thrust & air delivery

Designed to ensure maximum air flow across the entire space in a room, ensuring a gentle breeze in every corner of the room.

2 years warranty

Standard warranty of 2 years from the date of purchase against manufacturing defects with home service facility*.

1200mm	4	₹2100

THE WAY AHEAD FOR **ECOLINK FANS.**

EcoLink will soon offer a range of fans to cater to all needs of our customers. We are working on putting together our future range of fans with BLDC (Brushless Direct Current) Technology as well as a portfolio of Table, Pedestal, Wall & Exhaust/Ventilation fans.

The pipeline for EcoLink fans includes:

PEDESTAL FANS

Easy-to-move and adjustable in height, our free-standing pedestal fans are meant for areas where ceiling fans may not be a viable option. They offer better horizontal air-flow as compared to ceiling fans.

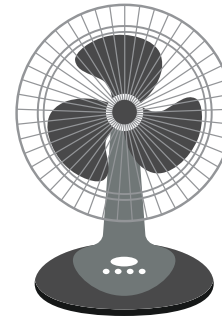

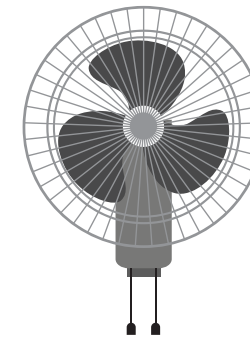

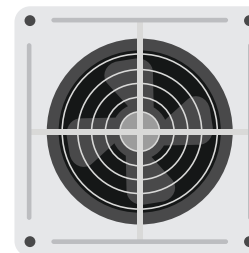

TABLE FANS

Built for homes and offices, our range of table fans are portable, adjustable and also have the option of tilting and oscillating.

WALL FANS

Our wall fans are meant for areas with space constraint. They can be mounted on walls in homes and offices and are adjustable. They also offer tilting and oscillating features.

EXHAUST/VENTILATION FANS

Suitable for kitchens and washrooms, these fans are great for improving the indoor air quality and getting rid of bad odours. They also help getting rid of excessive moisture in places.
