

The background of the entire page is a photograph of a cable-stayed bridge at night. The bridge has two tall, illuminated pylons with multiple stay cables fanning out to the deck. The bridge is lit with a combination of red, blue, and white lights. The lights are reflected in the water in the foreground, which has some rocks. The sky is dark blue.

MAKE THE BRIGHT CHOICE

Product Catalogue - 2020

Illuminating India

EcoLink was created with a vision to illuminate spaces through technologically advanced and competitively priced lighting fixtures.

Made specifically for Indian homes, EcoLink luminaires are designed to withstand drastic voltage fluctuations

with the revolutionary VoltSafe Technology. The products are long-lasting, durable, easily available at pocket-friendly prices and are efficient.

When you choose EcoLink, you don't just choose a luminaire, you get linked to illumination.

Cost-efficient and reliable luminaires

**BIS
APPROVED**

BIS Standard Compliance

All our products are performance and safety standard compliant. BIS standard & IEC 60598 registered.

No more straining your eyes

The versatile luminaires are designed to prevent eye strain with no visible flickering and negligible UV/IR effects.

EcoLink's wide range of luminaires come with the revolutionary VoltSafe Technology which ensures surge protection of 4kV with a wide voltage protection of upto 360V.
